PROFESSIONAL SUMMARY

Full stack developer with 2.5+ years building and maintaining production web applications. Strong on the backend with C#, ASP.NET, MVC and .NET Core, and on the frontend with React, Angular, Redux, TypeScript and backend by SQL Server. Recent work covers booking, gift card, and invoicing systems, frontend performance work on a large U.S. government application, and integrating OpenAI APIs into production workflows.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, SQL, HTML5, CSS3, JavaScript

Frameworks & Libraries: .NET Framework, ASP.NET, .NET Core, MVC, React, Angular, Redux

Databases: MS SQL Server, MySQL, stored procedures, query optimization

AI / LLM: OpenAI API, MCP Server

Tools & Platforms: Git, GitHub, Bitbucket, Jira, Azure, AWS

PROFESSIONAL EXPERIENCE

CodeQuantum Technologies Pvt. Ltd. — Software Developer (.NET + React/Angular) **May 2024 – May 2026**

Ahmedabad, Gujarat • Contract-based company • Client project: Tyler Technologies, USA

- Built and maintained web applications in C#, .NET Core, MVC and React , SQL Server for retail and enterprise clients, including a booking and scheduling system built from the ground up covering availability, reservations, confirmations, and cancellation handling.
- Developed a gift card module that handles issuance, balance tracking, partial redemption, and expiry rules.
- Built invoicing features including invoice generation, line-item and tax calculation, payment status tracking, and PDF export.
- Integrated OpenAI and Claude APIs into existing workflows for content generation, smarter search, and AI-assisted data processing, and set up an MCP server to connect these tools to internal systems.
- Led frontend development and optimization of a U.S. government web application for client Tyler Technologies, using React.js, Redux, and TypeScript.
- Improved that application's performance by around 40% and raised user satisfaction by 30% across more than 10,000 end users, mainly through code splitting, lazy loading, and a responsive design overhaul.
- Helped move older modules to .NET Core to improve performance and make the code base easier to maintain.

AdiInfi Pvt. Ltd. — (.NET + React/Angular Intern) **Nov 2023 – Apr 2024**

Ahmedabad, Gujarat

- Developed and maintained web applications and business features using C#, .NET Framework, .NET Core, ASP.NET, and React.
- Wrote and tuned SQL queries, stored procedures, and functions in MS SQL Server to support application features and data operations.
- Built responsive UI components, forms, and screens with React, HTML5, CSS3, JavaScript, AJAX, and jQuery.
- Took part in analysis, development, testing, and bug fixing alongside cross-functional teams.

PROJECTS

StaffSync — HR Attendance & Leave Management System · React, TypeScript, Node.js, Express, PostgreSQL · GitHub · Live site

- Personal project for managing employee attendance and leaves, with six user roles, daily punch in and punch out, monthly attendance calendars, and leave requests that pass through multi-level approval.
- Integrated real-time fingerprint machine support, so punches from a physical ZKTeco device sync automatically into attendance records without any manual entry.
- The backend is a REST API written in Express and TypeScript on a PostgreSQL database with Prisma, with JWT login and bcrypt for password security.
- HR and admin screens cover employees, shifts, and holidays, plus attendance, department, and leave reports that can be downloaded as CSV or Excel.

MobileBitz — Mobile Shop Management System · Angular, TypeScript, Tailwind, Node.js, Express, PostgreSQL · Live site

- Website for a mobile phone shop with an admin side to manage stock, brands, banners, offers, and customer inquiries, and a customer side where visitors browse phones, filter by brand and price, and reach out over WhatsApp.
- Runs live on Vercel and Render with a Neon PostgreSQL database and Cloudinary for product images, and works properly on both phone and desktop screens.

EDUCATION

Gandhinagar Institute of Technology — B.E. in Information Technology **Aug 2020 – May 2024 | Gandhinagar, Gujarat**
